EDUCATION

Full Stack Immersion / Certificate

April 2022 – Sep. 2022

CareerFoundry, Online

- Built a strong fluency in HTML, CSS, and JavaScript.
- Built a responsive JavaScript client-side application, called Active Pokédex, that interacted with an external API, which was created for Pokemon enthusiasts who enjoy the genre.
- Built my own server-side REST API database using Node.js and MongoDB, which hosted information and data about numerous movies for a future applications intended for movie lovers.
- Built a React & an Angular application that interacted with my REST API movie database, which used HTTP requests (CRUD methods) to pull the information to the client-side for movie lovers to enjoy.
- Explored test-driven development to build a JavaScript application called Meet, which allowed users who were in search for coding events, find these events and get together to attend them.
- Built a real-time mobile chat app using React Native that stored data on the client side, which allowed its users to connect and chat together for free and store their messages with each other.

WORK EXPERIENCE

Amazon Warehouse Associate

Feb 2022 – Current

Amazon Tracy, CA

- Maintained quality assurance while picking & packing orders and achieved top 10% of all pickers, eventually leading to an overall higher level of productivity and orders completed for the company in a whole.

Lead eCommerce

June 2018 – Feb 2022

Safeway & Albertsons Inc, Stockton & Sacramento, CA

- Achieved Lead position in Stockton after the first 6-months after taking on the extra load during holiday & peak seasons, leading to a large success of completed orders and customer satisfaction well above expectancy.
- Helped Manage and Co-manage the eCommerce department to fulfill online orders and schedule deliveries for third-party and company vehicles, resulting to an increase of orders completed in a shorter than expected time, which allowed the company to open more slots for customers orders overall.

Humanities Volunteer

April 2017 – Oct 2017

South Africa: Cape Town, Bloemfontein, Johannesburg

- Helped many substance abuse and addicts into recovery homes in order for them to get through their addictions, leading to an overall growth in healthy and happy individuals, eventually reconnecting them with their families.

Authorized Technician

July 2016 – Feb 2017

Flextronics AT&T, Stockton CA

- Troubleshoot clients software and hardware complications in their cellular devices and other technologies, resulting in an overall increase in client satisfaction and company growth due to troubleshooting successes and unnecessary warranty uses.
- Coached clients troubleshooting techniques in their own devices, leading to an increase of technologically knowledge and understanding in our clients, which caused less repetitive cases.
